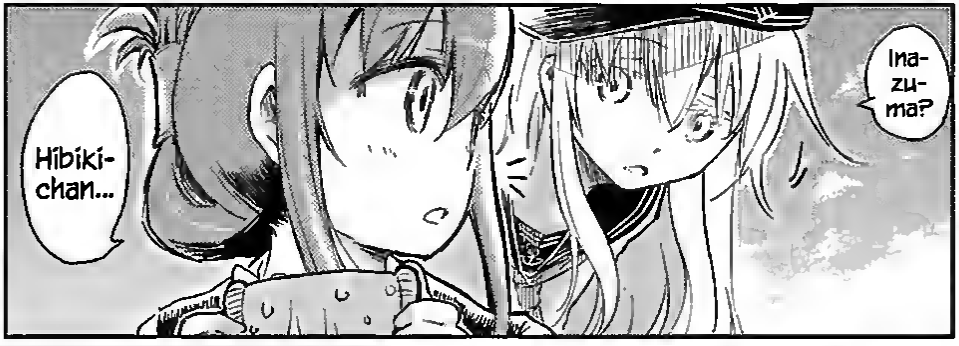
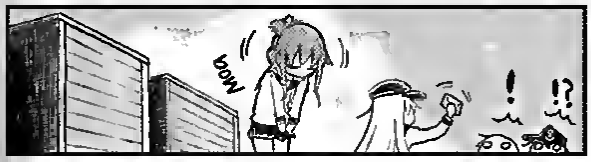
Among rumor loving ship girls,
There is a particular mystery about this base.
Even today it is surely being shared in whispers...
...So it's around here somewhere?
You are sure you had it with you, right?

There there
.....Probably.
Shuffle
P... Probably...?
It figures.
I doubt we'll find it around such an empty place.
...It figures?
Well, don't worry about it-!
Ah...
Um...
.....
Let's go check in with Maniya-san again.
Maybe someone turned it in to the lost and found





Within the harbor of the strictly guarded naval base...

A mystery lurks. Who are the "I-Class Club"...?

Phwa!
Chart Club Affiliation

I'm back ~!
Wel-come back

Didja get lost, dechi?
Nah.
I attack your first ship.
You're getting oddly pro-tective.
And shad-dup.
Your turn.
I equip a Zuiun on my second ship.
See?
She made it back on her own just fine.
There's towels on the shelf there.
Got it~

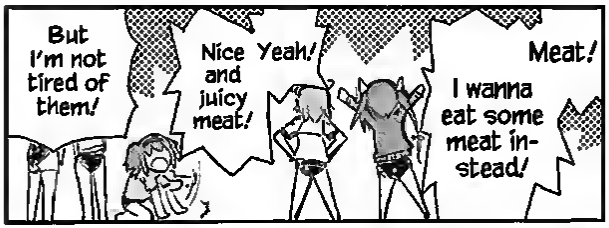
VVVM
Hm -?
O-Of course not! You worry too much!
EH !?
JOLT
You didn't get spotted by any surface girls, did you?

You did see!
But I made sure they didn't see my face!
I was just thinking to myself...
"Nimu sure is kind, huh~"
...
Did you see ...?
See what?
Nimu...
To us submarine girls,
Being discovered by surface ships while we're out
Is super embarassing, nano!
Like, if I had to say how embarassing...
FLAP FLAP
It's like someone peeking up your skirt, (Or so I hear) nano!
You're still pushing that...?
...I don't wear one, so I don't know what it's like.
...Me neither.
But don't let it happen no matter what!
Dechi!

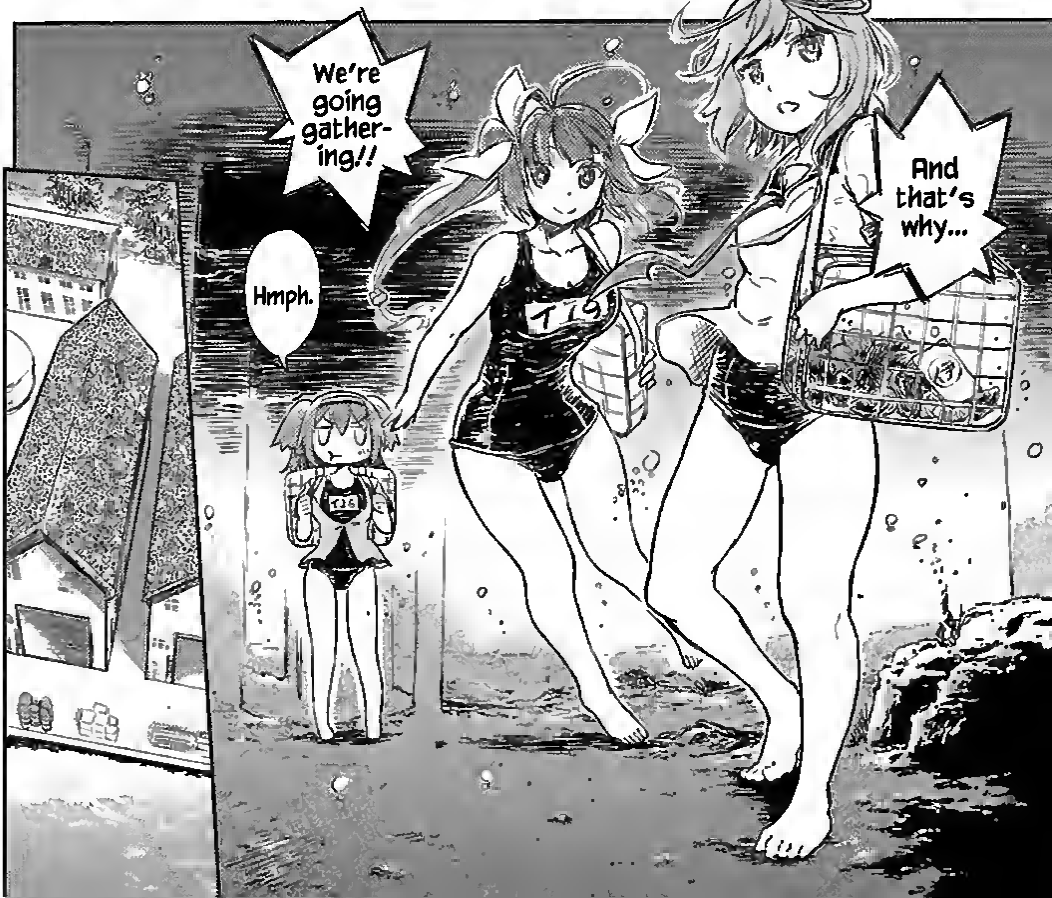
Aren't you our leader, Imuya...? What a shock...
What were you thinking ...?
Play the "What Color is the Flagship Wearing Today" game. But one day we got carried away and got caught...
We couldn't help ourselves, so for a while...
Imuya, Iku, and I would all...
Unlike the functional beauty of these swimsuits Admiral gave us,
The surface uniforms are all loose and fluttery.
And from underwater, you can plainly see...
Pink today, huh
Ever since then, the light cruisers and destroyers look at us like we're the enemy, dechi...
The next day's practice battle turned into a little game of dodge the depth charges, nano.
Don't turn out like them.
Okaaay
It all looks yummy...
I can't wait for dinner!
Huh?
That's a pretty good haul!
I did my best!
Ooh-
ちゃぶ
ちゃぶ

But... I'm not.
I'm sick and tired of eating them all the time, nano!
Besides, sea urchins, oysters, abalone...

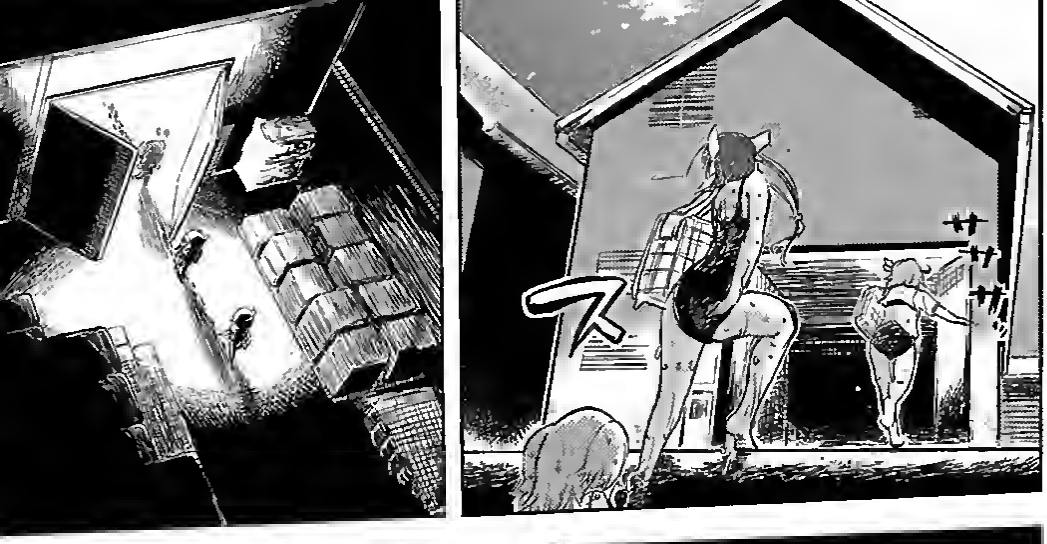
We're not gonna eat any of that, nano.
There's a better use for them!
EH !?



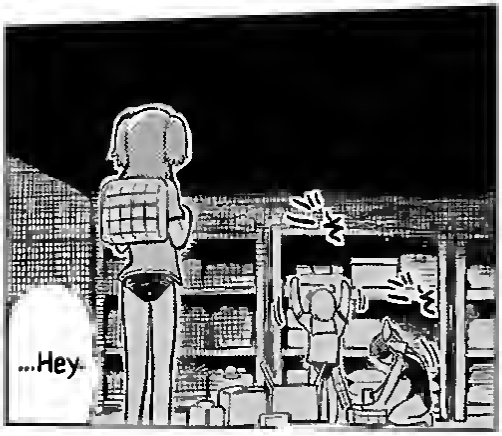
But I'm not tired of them!
Nice and juicy meat!
Yeah!
Meat!
I wanna eat some meat instead!



We're going gathering!!
Hmph.
And that's why...



Don't go making our reputation worse, nano!
dechi!
Ah!
Isn't this just ... Steal-ing?



...Hey

Don't get all worked up-
It's not an exaggeration to say it's the most vital part, dechi!
These covert actions are a part of our training, dechi!
But are we allowed to...?
Their food -!
For
Our sea-food
We're just trad-ing! Look,
I WAS HERE

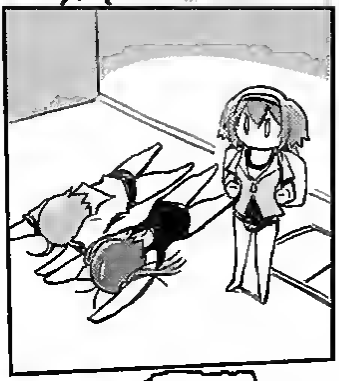
Wha

Just get out of here!
W-Wait, what!?
Dive—!
We have to run now!!
BONK
...Hm?
?
?
?
sploosh

You need to practice more.
It's okay now
You make too many bubbles when you dive, you know...
Uh,
Are you the new girl...?
Crap, I didn't mean to!?
You never show your face anymore.
Oh, how rare.
...
We're just...
Borrowing a little.
Seeya around.
Bring a lot of pacific saury next time.
Sure, sure.

Hey, welcome back.
I just finished making the Imuya special,
Sea-food Curry~

How long have you been able to make something like that, dechi!?
I want meat, nano! Meat -!!
What is with you two.
It looks so good!



The true identity of the "I-Class Club"...
Let's eat already-!
To this day, it is still shrouded in mystery...
